MAP TO THE MAZE

The only entrance & exit to the Maze is through the eighteenth century riding school. The design of this very substantial Beech hedge Maze conceals a clue to the identity of its original designer since Sir Alfred Beit's family were early pioneers in the world diamond industry. A statue of Cupid stands on a column at the centre, tantalisingly indicating the goal from all parts of the Maze.

RUSSBOROUGH

Russborough was built in 1741 by Joseph Leeson the first Earl of Milltown. Regarded as one of Ireland's most beautiful houses it also has magnificent views of the Blessington lakes and the Wicklow mountains.

In 1978 Sir Alfred Beit opened the house to the public for guided tours. The house which is beautifully maintained and lavishly furnished contains fine furniture, tapestries, carpets, porcelain, silver and much of the Beit collection of paintings. It has magnificent ceilings, plasterwork and a mahogany staircase.

There is also a parkland walk around the estate.
